

EACO Presentation

Date: *Thursday, March 26, 2009*
Time: *11:00 am - 12:00 Noon – light lunch to follow*
Location: *TCA Offices: 70 Leek Cres., Richmond Hill ON*
Telephone: *416-499-4000*
Topic: *'Doing Business with Defence Construction Canada'*

EACO is pleased to invite you to attend the above-noted presentation. Join Defence Construction Canada representatives as they provide useful information on what they do, how you can get work and what you can expect if you're awarded a contract.

DCC's mission is to deliver infrastructure and environmental projects and services required for the defence of Canada.

DCC contracts for, manages, maintains and decommissions facilities, and delivers a host of specialized, professional services in support of DND's operations here in Canada and abroad. As part of their expanded services, hazardous material surveys and abatements are becoming increasingly more common to maintain compliance with regulations and policies at both the federal and provincial levels.

DCC is frequently engaged in the procurement and contract management of external service providers to meet the needs of their clients. Their role is to act as the bridge between private industry and DND, ensuring fair value is provided in meeting the department's requirements, and providing a fair platform in allowing industry access to DND work.

Please respond no later than March 20, 2009 to: Michelle Jones - EACO
